building a brighter future for 75 years!

About Us

At the Children's Therapy Center, we often see families at their worst; when they have just learned that their child has a life-altering or life-threatening condition.

Medical professionals often focus on the child's expected limitations. We focus on what the child *can* do and encourage parents to see that with appropriate therapy and consistent effort, there is hope for a brighter future!

We've been providing this life-changing therapy to kids with disabilities and delays throughout eastern Iowa and western Illinois since 1949 – regardless of a family's ability to pay for needed services! With over two hundred kids on our waiting list, our services are needed now more than ever!

Currently, over 75% of the services provided are not reimbursed, so fundraising is really important!

Our compassionate and dedicated team provides unrivaled outpatient therapy services to kids with a variety of diagnoses and conditions to help them reach their highest level of independence:

 **Physical Therapy** promotes gross motor development and independence with mobility, balance, gait, play and daily living skills.

 **Occupational Therapy** promotes independence with self-help skills, fine motor skills, independent living skills and play.

 **Speech Therapy** promotes independence through the development of a child's speech and language skills.

 **Feeding Therapy** enables infants, toddlers, and older kids to overcome feeding and swallowing disorders.
